

WHY AICO?

Aico, an Ei Company, are the European market leader in home life safety, pioneering new technologies and offering high-quality alarms and sensors, developed and manufactured in Ireland. All our products meet UK standards, ensuring full circle protection for every home. Education, quality, service and innovation is at the heart of everything we do.

Aico's commitment extends beyond fire protection, as we expanded our offering through HomeLINK technology. This high-tech software leverages Internet of Things capabilities to create Connected Homes, which are not only safer and healthier, but also more sustainable and efficient.

EDUCATING THE INDUSTRY

As part of our commitment to education, Aico delivers free comprehensive training programmes designed to support various stakeholders across the industry, from contractors to distributors, housing associations to landlords.

Our award-winning accredited courses ensure that industry professionals are equipped with the necessary knowledge and skills to specify, install and manage home life safety products, working together to promote best practice within the industry and ensure safer, healthier homes across the UK.

Training for Excellence

April 2025

an **Ei** Company

SMART HOMES

This course covers everything you need to know about the use of Internet of Things technology to combat the challenges faced by the social housing sector. Smart Homes covers regulatory compliance, resident safety, achieving net zero, and identifying disrepair such as damp and mould.

CPD Time: 30 minutes

HEALTHY HOMES

This course builds upon the Smart Homes, and focuses on addressing the key challenges related to unhealthy homes and their impact on stakeholders. It delves into the causes and signs of damp & mould, policies, and regulations. It also highlights how our HomeLINK Connected Home Solution can help tackle these challenges.

CPD Time: 45 minutes

DAMP & MOULD

This training course is designed to equip housing officers, maintenance teams, compliance managers, and senior leadership with the necessary knowledge and tools to identify, assess, and resolve damp and mould issues effectively.

CPD Time: 60 minutes

The Expert Installer training course is designed to equip electrical contractors with the necessary knowledge and skills to correctly install domestic alarm systems. The course includes a UK-wide overview of Legislation, Building Regulations and British Standards.

CPD Time: 2 hours

All Expert Installers will be invited to join our award-winning Installer Community.

- ✓ **Connect** with fellow professionals
- ✓ **Learn** new skills to earn points & receive prizes
- ✓ **Rewards** for members every month

This City & Guilds assured training course takes place at our state-of-the-art Centre Of Excellence in Shropshire and provides in-depth knowledge on Domestic Fire & CO Alarm systems.

The full-day course provides attendees with a detailed understanding of the design, siting, installation, interconnection and maintenance of domestic alarms.
