

Fire Safety

Staying safe in your home is really important. Below are our top tips on how to keep safe while cooking in the kitchen.

- Never start cooking without an adult present
- Keep tea towels and cloths away from the cooker/hob
- Never play with matches
- Always ask an adult before handling anything hot
- Never put metal in the microwave
- Don't mess around or run in the kitchen
- Adults should never leave pans on the heat when they leave the room
- Adults should make sure the cooker is switched off after use

Did you know that nearly half of all fires happen while cooking?

Spot the Fire Hazards

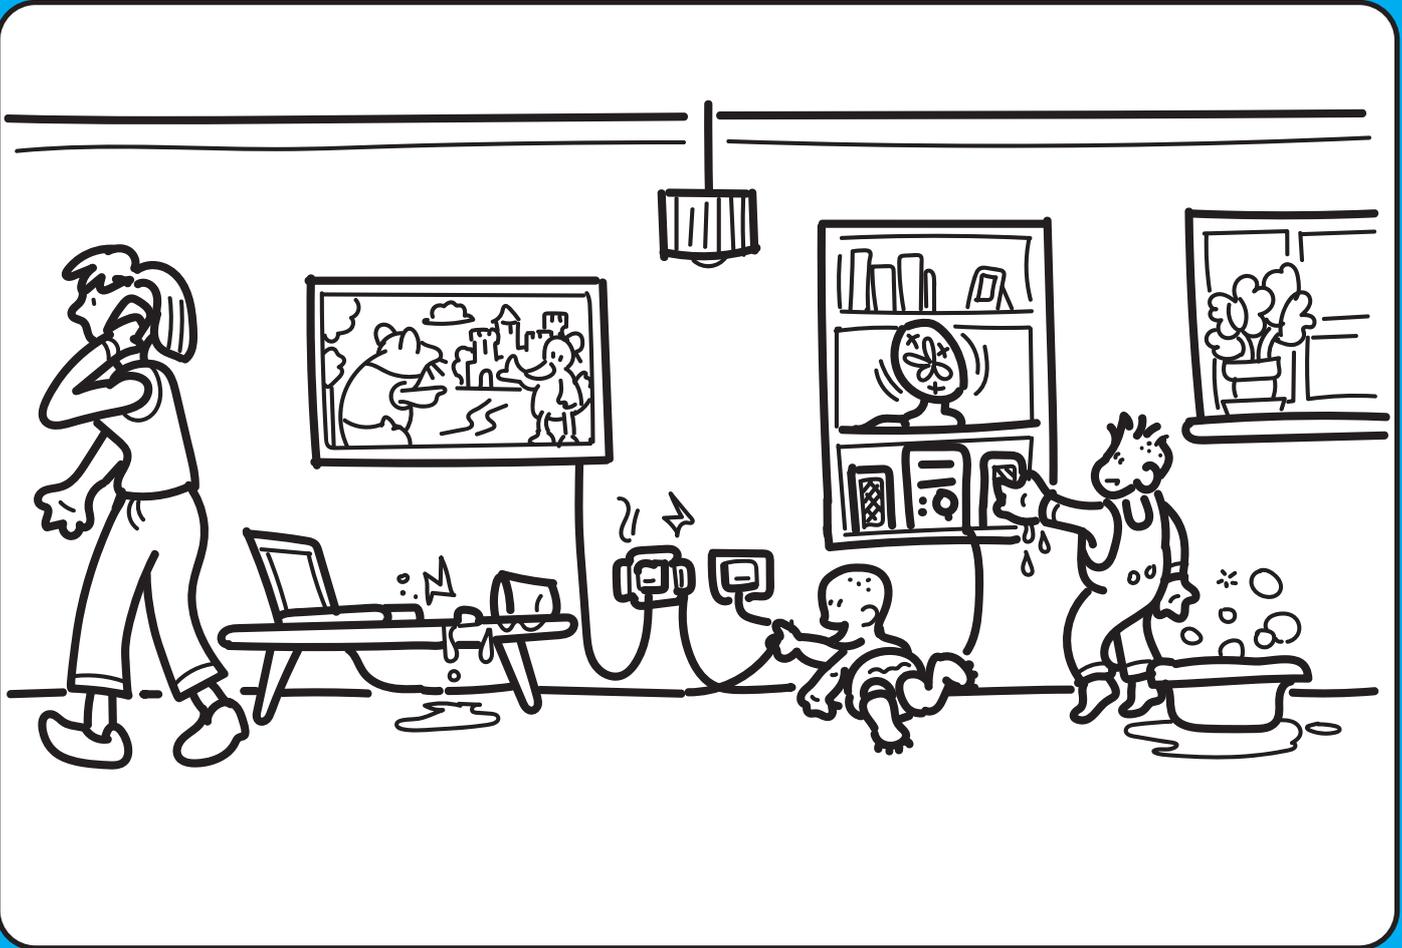

Can you spot the 5 fire risks in the kitchen below?
